

GROUP_13

PROJECT MARKS

Following are the results of your final project marking.

The project was tested in Android Studio with the following setup:

Android studio version: Ladybug feature drop 2024.2.2

Compile SDK: 35

Min SDK: 24

Target SDK: 35

Java Version: 11

Gradle plugin version: 8.8

Gradle version: 8.10.2

After cloning a fresh copy of your repository, features were tested in order that they appear in the "Done" column on your group's Trello board. Testing terminated when a feature that failed to pass the "happy path" was encountered.

Each feature was marked as follows:

zero (0)--Missing, or not graded due to earlier failures.

5 pts--Not really: present, but fails happy path.

6.5 pts--Somewhat: fails boundary values or devious input.

8 pts--Mostly: no failures, but not ready for Play Store.

9.5 pts--Definitely: no failures, could be published as-is on Play Store.

Extra features were considered only if all other features achieved "Mostly." Additionally, extra features only result in extra credit if they are marked "Mostly."

Extra features:

- * Pop Quiz view: "wanna" is not a real word.
- * Review answers view: punctuation and capitalization are incorrect.
- * Test history view: works.

Section/+ Component		Mark	Score	Possible
<hr/>				
Marks				
+	Feature 1:	Somewhat	6.5	of 10

Create Flashcard View. Without the description on the Trello board, I wouldn't know how to do this, or even what this app is for.

It works, but it is possible to create a blank card by entering only whitespace.

+	Feature 2:	Somewhat	6.5	of	10
	Edit Collections Activity				
	As above, it's possible to give a collection a blank name by entering only whitespace. But curiously, editing a collection with a whitespace-only name detects the empty name initially.				
	The "long press" functionality apparently only allows one to edit the collection name, but not the collection itself.				
+	Feature 3:	Somewhat	6.5	of	10
	Edit Flashcards				
	Works, with same blank value problem.				
+	Feature 4:	Somewhat	6.5	of	10
	Create Collections of Flashcards. As above, it's possible to create a collection with a blank name by entering only whitespace.				
+	Feature 5:	Mostly	8	of	10
	Store Flashcard Data Works, I guess. This is not user visible.				
+	Feature 6:	Mostly	8	of	10
	Answering questions Activity				
	Works well, I like the encouragement when answers are wrong. It would be better if the test taking function was separate from the collection editing, so as a learner I can't see the whole deck when I take the test.				
+	Feature 7:	Mostly	8	of	10
	Track right and wrong answers.				
+	Feature 8:	Mostly	8	of	10
	Streak "activity". This is not really an "activity" as it's part of the "Answering questions" activity.				
+	Feature 9:	Mostly	8	of	10
	Overview results screen.				
+	Feature 10:	Mostly	8	of	10
	Toolbar navigation.				
+	Feature 11:	Mostly	8	of	10

Export to csv

Works, but I'd like the email message to have an informative subject line.

+	Feature 12:	Mostly	8	of	10
	Import shared CSV				
	This is a nice feature.				
	Marks gross score:		90	of	120
<hr/>					
-	Adjustments to Marks				
	Extra Credit:	+ 8 =	98	of	120
	Extra features:				
	<ul style="list-style-type: none">• Pop Quiz view: "wanna" is not a real word. 0 points.• Review answers view: punctuation and capitalization are incorrect. 0 points.• Test history view: works. +8 points				
	Marks net score:		98	of	120
<hr/>					
<hr/>					
	Total net score:		98	of	120 = 82%
